GERMANY OFFERS OUTSTANDING MARKET OPPORTUNITIES

With a nominal GDP of close to \$4 trillion, Germany ranks the 4th richest country in the world. As a founding member of the European Union, Germany has full access to all the benefits of the EU's single market covering its 27 member countries as well as access to the EU's framework of international trade agreements with countries such as Canada, Mexico, Japan, Singapore, Vietnam, Australia, New Zealand and the MERCOSUR members.

Good governance, competitive tax regulations and a wide range of funding options make Germany a reliable and successful investment location that has attracted thousands of foreign companies. In 2018 alone, Germany Trade & Invest (GTAI) recorded more than 2,000 foreign companies opening new businesses in Germany. With \$36.6 billion foreign direct investment (FDI) in 2019, Germany ranks among the top ten locations for FDI in the world, according to the United Nations Conference on Trade and Development (UNCTAD).

The excellent infrastructure and highly qualified workforce are factors that contribute to this sustainable success.
